Next Review: [template due for review September 2024]

Date Agreed by LGB]

At Stapleford Abbots Primary Academy we have high expectations of all our children and work to ensure that every child, whatever their background, receives a high quality education. We want all our children to feel that they are a valued part of our school community and our overriding aim is that children who are most in need will have barriers removed and needs fully supported.

We firmly believe in developing a strong partnership with parents/carers and that this will enable children and young people with SEND to achieve their full potential. The school recognises that parents/carers have a unique overview of their child's needs and how best to support them, and that this gives them a key role in the partnership. Parents/carers hold key information and have a critical role to play in their children's education.

Our vision and ambition is for a community of learners who share the mindset of success and are driven by the prospect of opportunity for all. We strive to provide an environment of aspiration, respect and openness, enabling staff and students to thrive.

Our values are a Shared Voice, Shared belief and Shared Success. Our overriding aim is that children who are most in need will have barriers removed and needs fully supported.

How do we provide support at SAPA?

We aim to ensure that:

- pupils have any special educational need identified early, an assessment is carried out and provision put in place which is monitored and reviewed regularly
- there are high expectations of all pupils and action taken to remove any barriers to success
- teachers understand their role in meeting the needs of pupils with SEND, whom they teach and are supported to do this
- pupil voice is taken into account at every stage
- partnerships with parents/carers enable them to play a key role in supporting their child's education and enabling them to achieve their potential
- pupils with SEND have access to a broad and balanced curriculum and are encouraged to participate in all aspects of school life
- it works in partnership with the local authority and other external agencies to meet the needs of pupils
- reasonable adjustments are made to support pupils with a disability

We want to work in partnership with you to help your child and we know and understand that all children at some time struggle with their work or find school difficult. So if you have any worries about your child's specific needs please talk to your child's class teacher in the first instance.

If you have a problem or worry that cannot be resolved by your child's class teacher you are welcome to come and speak to Miss Wreford, who is happy to meet with you and can often help you to find the right service in the community to help with particular issues.
